

A LIFETIME OF CANINE WELLNESS

Mary Ann Vande Linde, DVM

Pet's Name _____ M F N S

Please remember that this is a wellness schedule. If your pet ever becomes ill, additional tests and diagnostics will be necessary.

Up to 85% of pets older than 3 years of age have dental disease! Dogs and cats are not supposed to have bad breath. They have bad breath because they do not brush their teeth. Brushing your pet's teeth is beneficial for both your pet and your pocketbook. Advanced dental disease can be costly, not to mention painful to your pet. If you are unable to brush your pet's teeth daily, consider having a dental cleaning performed on your pet once a year.

“Senior at Seven”
Pets don't age the way people do—they age much faster. Most pets are considered seniors at 7 years of age. Be sure to visit your veterinarian regularly.

8 Weeks _____

- ___ Comprehensive physical exam
- ___ Weight _____
- ___ Body condition score (BCS) _____
- ___ DHPPV/DHLPPV vaccine *
- ___ *Bordetella* vaccine
- ___ Gastrointestinal parasite testing
